

Product Information Sheet

in accordance with Regulation (CE) n.1907/2006 (REACH)

K-FLEX K-FIRE PIPE WRAP

1. IDENTIFICATION OF THE ARTICLE AND OF THE COMPANY/UNDERTAKING

1.1. Product Identifier

Article/Mixture identification:

Trade name: K-FLEX K-FIRE PIPE WRAP
Shape: Stripes and Wraps
Trade code: isol013f

1.2. Relevant identified uses of the article/mixture and uses advised against

Recommended use:

Flexible intumescent sheet material for fire separating walls and floors

1.3. Details of the supplier of the information sheet:

Distributor:

K-FLEX Polska Sp. z o.o.
ul. Pucka 112, 81-154 Gdynia, Polska

Company:

L'Isolante K-Flex SpA
Via Leonardo da Vinci 36, 20877. Roncello, MB, Italy
Phone: +39 039 68 24.1

Competent person responsible for the information sheet:

Kflex-Reach@isolante.com

1.4. Emergency telephone number

Phone: +39 039 68 24.1 (9:00 – 17:00 hours)

In case of accident, locate the nearest antipoison centres in the following link:

WHO <http://apps.who.int/poisoncentres/>

2. HAZARDS IDENTIFICATION

2.1. Classification of the article:

The finished product consisting of a

Flexible intumescent sheet material in plastic sleeve

it is not considered dangerous and has no risk factors under the conditions of its use.

It is an article according to REACH Regulation n. 1907/2006/CE and 2001/60/CE, it contains no substances included in Candidate List SVHC in quantities $\geq 0.1\%$ (w/w). Thus, it does not require a full SDS, according to Regulation 1907/2006/CE.

Adverse physicochemical, human health and environmental effects:

No other hazards

2.2. Label elements

Symbols:

None

Hazard statements:

None

Precautionary statements:

None

Special Provisions:

None

2.3. Other hazards

PBT / vPvB substance: none

K-FLEX K-FIRE PIPE WRAP

3. COMPOSITION/INFORMATION ON INGREDIENTS

3.1. Substances

Identification of the substance:

Not Available.

3.2. Article/Mixtures:

Articles of specially designed intumescent sheet in different shapes and dimensions.

4. FIRST AID MEASURES

4.1. Description of first aid measures

In case of skin contact:

During the processing of the product the contact with skin is unlikely. Use protective gloves.

The product has also no special risks related to its use.

In case of eyes contact:

During the processing of the product the contact with eyes is unlikely. The contact with the eyes can occur through contaminated hands or dust.

Rinse immediately with plenty of water and seek medical advice.

The product has also no special risks related to its use.

In case of ingestion:

Due to the particular shape of the product, is unlikely that the swallow occurs. The contact with the mouth can occur through contaminated hands or dust.

The product has also no special risks related to its use.

In case of Inhalation:

During the processing of the product, inhalation of particles and dust is unlikely.

The product has also no special risks related to its use.

4.2. Most important symptoms and effects, both acute and delayed

No known symptoms to date.

4.3. Indication of any immediate medical attention and special treatment needed

Treatment:

No known treatment to date.

5. FIRE-FIGHTING MEASURES

5.1. Extinguishing media

Suitable extinguishing media:

Water.

Carbon dioxide (CO₂). Chemical dry powder. Water spray.

Extinguishing media which must not be used for safety reasons:

No data available.

5.2. Special hazards arising from the substance or mixture

Burning smoke and fumes of carbon oxide (CO), carbon dioxide (CO₂), sulphur dioxide (SO₂) and alogens (Br, Cl).

5.3. Advice for fire-fighters

Use suitable breathing apparatus .

Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Move undamaged containers from immediate hazard area if it can be done safely.

6. ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures

Wear personal protection equipment.

Remove persons to safety.

K-FLEX K-FIRE PIPEWRAP

Page n. 2 of 7

Product Information Sheet

in accordance with Regulation (CE) n.1907/2006 (REACH)

K-FLEX K-FIRE PIPE WRAP

See protective measures under point 7 and 8.

6.2. Environmental precautions

The product does not present any particular risk for the environment, however, do not allow to enter into soil/subsoil and the runoff into surface water or drains as a waste.

Retain contaminated washing water and dispose it.

In case of run-off into waterways, soil or drains as a waste, inform the responsible authorities.

6.3. Methods and material for containment and cleaning up

Washing avoiding penetration of the pigments supported by the film into soil/subsoil, the runoff into surface water or drains.

Suitable material for taking up: absorbing material, organic, sand.

Wash with compatible material

6.4. Reference to other sections

See also section 8 and 13

7. HANDLING AND STORAGE

7.1. Precautions for safe handling

The product can be handled without special precautions in the conditions required for its use.

However, avoid contact with skin and eyes through contaminated hands or dust.

Contaminated clothing should be changed before entering eating areas.

Do not eat or drink while working.

See also section 8 for recommended protective equipment.

7.2. Conditions for safe storage, including any incompatibilities

Storage class (Germany only): LGK 13 non-flammable solid.

Keep away from food, drink and feed.

Incompatible materials:

Strong oxidizers and acids.

Instructions as regards storage premises:

Adequately ventilated premises.

7.3. Specific end use(s)

Flexible intumescent sheet material for fire separating walls and floors

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters

None.

DNEL Exposure Limit Values

Not Available.

PNEC Exposure Limit Values

Not Available.

8.2. Exposure controls

Eye protection:

Goggles. Operate according good working practices.

Protection for skin:

Full suite. Operate according good working practices.

Protection for hands:

Disposable gloves. Operate according good working practices.

Respiratory protection:

Not needed for normal use. During the processing of the product the inhalation of the product and dust unlikely. Anyway, operate according good working practices.

Product Information Sheet

in accordance with Regulation (CE) n.1907/2006 (REACH)

K-FLEX K-FIRE PIPE WRAP

Thermal Hazards:

Self-extinguishing.

None.

Environmental exposure controls:.

Local exhaust and general ventilation.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on basic physical and chemical properties

Appearance: solid

Odour: characteristic

pH: 7 (aqueous extraction)

Melting point: not applicable

Solid/gas flammability: Euroclass (EN 13501)

Water solubility: insoluble

Density: Not available

Decomposition temperature: Not applicable

9.2. Other information

None

10. STABILITY AND REACTIVITY

10.1. Reactivity

Stable under normal conditions.

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

Reaction may occur with strong oxidizing agent.

10.4. Conditions to avoid

Eliminate ignition sources.

10.5. Incompatible materials

Strong mineral acids (nitric acid, hydrochloric acid, sulfuric acid, hydrofluoric acid), bromine, chlorine, hydrogen peroxide, aniline, benzene, chloroform, Freon 11, fuel FAM, carbon tetrachloride, trichloroethylene and xylene (reaction moderate or intensive).

Avoid contact with strong oxidants

10.6. Hazardous decomposition products

Decomposition products in case of fire: carbon oxide (CO), carbon dioxide (CO₂), and alogens (Br, Cl).

11. TOXICOLOGICAL INFORMATION

11.1. Information on toxicological effects

Toxicological information of the article:

Not Available.

If not differently specified, the information required in Regulation 453/2010/EC listed below must be considered as not available:

- acute toxicity;
- skin corrosion/irritation;
- serious eye damage/irritation;
- respiratory or skin sensitisation;
- germ cell mutagenicity;
- carcinogenicity;

K-FLEX K-FIRE PIPE WRAP

- g) reproductive toxicity;
- h) STOT-single exposure;
- i) STOT-repeated exposure;
- j) aspiration hazard.

12. ECOLOGICAL INFORMATION

- 12.1. Toxicity
Adopt good working practices, so that the product is not released into the environment as a waste.
Ecotoxicological information of the article:
Not Available.
- 12.2. Persistence and degradability
Not Available.
- 12.3. Bioaccumulative potential
Not Available.
- 12.4. Mobility in soil
Not Available.
- 12.5. Results of PBT and vPvB assessment
None
- 12.6. Other adverse effects
None known to date.

13. DISPOSAL CONSIDERATIONS

- 13.1. Waste treatment methods
Waste disposal according to local waste disposal regulation.
Preferably waste disposal in landfill (solid waste).
For this product incineration is not recommended (due to the release of decomposition products) .
List I of Directive 76/464/EEC: Water pollution by discharges of certain dangerous substances.
Directive 80/68/EEC: on the protection of groundwater against pollution caused by certain dangerous substances.

14. TRANSPORT INFORMATION

- 14.1. UN number
Not classified as dangerous in the meaning of transport regulations.
- 14.2. UN proper shipping name
Not classified as dangerous in the meaning of transport regulations.
- 14.3. Transport hazard class(es)
Not classified as dangerous in the meaning of transport regulations.
- 14.4. Packing Group
Not classified as dangerous in the meaning of transport regulations.
- 14.5. Environmental hazards
Not classified as dangerous in the meaning of transport regulations.
- 14.6. Special Precautions for User
Not classified as dangerous in the meaning of transport regulations.
- 14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not classified as dangerous in the meaning of transport regulations.

Product Information Sheet

in accordance with Regulation (CE) n.1907/2006 (REACH)

K-FLEX K-FIRE PIPE WRAP

15. REGULATORY INFORMATION

- 15.1. Safety, health and environmental regulations/legislation specific for the article/mixture
- Regulation (EC) n. 1907/2006 (REACH)
 - Regulation (EC) n. 1272/2008 (CLP)
 - Directive (EC) n. 1999/45
 - Regulation (EC) n. 790/2009 (ATP 1 CLP)
 - Regulation (EU) n. 453/2010 (Annex I)
 - Regulation (EU) n. 286/2011 (ATP 2 CLP)
 - Regulation (EU) n. 618/2012 (ATP 3 CLP)

Where applicable, refer to the following regulatory provisions :

Directive 76/464/EEC: Water pollution by discharges of certain dangerous substances
Directive 80/68/EEC: on the protection of groundwater against pollution caused by certain dangerous substances

VOC Regulations:

French Regulation DEVL1101903: VOC emission class A+

Compliance of AgBB/DIBt German Requirement of 2012.

Compliance of the Belgium Royal Decree to the indoor environment from construction product of 2012

- 15.2. Chemical Safety Assessment
No

16. OTHER INFORMATION

Based on the information received from suppliers, the product is an article according to REACH Regulation No. 1907/2006/CE and 2001/60/CE. It contains no substances included in Candidate List SVHC (Substances of Very High Concern) in quantities $\geq 0.1\%$ (w/w).

Thus, according to Regulation No. 1907/2006/CE, a full MSDS (Material Safety Data Sheet) is not necessary and it cannot be issued for articles free of SVHC substances

According to Article 33 of the REACH Regulation No. 1907/2006, any changes regarding the presence of SVHC will be promptly notified.

This document was prepared by a competent person who has received appropriate training.
